SILICONE SPRAY

Fast-Evaporating Degreaser for Brake Systems and Metal Parts

Removes grease, oil, wax, brake dust and lubricant residues from metal surfaces. Strong degreasing action and fast evaporation, with a high-pressure spray head and 360° operation. Removes gasket residues and resinous lubricants.

KEY ADVANTAGES

- Strong degreasing action with fast evaporation
- High-pressure spray head with 360° operation
- Removes gasket residues and resinous lubricants
- Dissolves brake fluid residues

BRAKE CLEANER

APPLICATIONS

Brake pads, discs, shoes, drums, calipers and other parts of the braking system, as well as the clutch. Dissolves and removes brake fluid residues.

MODE OF USE

Use in a well-ventilated area. Avoid inhaling the spray and contact with the skin. Do not leave sensitive or painted parts soaked for a long time. Follow the instructions on the label.

SAFETY AND ENVIRONMENT

Use in accordance with the recommendations of the Safety Data Sheet (SDS). Do not discharge into drains, soil or water; dispose of used product through authorised collection points.
